

# Introducing Pay Gate: A Step-by-Step Guide to CloseOption's New Payment Method

This guide provides step-by-step instructions for depositing funds using the Pay Gate payment gateway, CloseOption's new payment method. Pay Gate supports multiple payment providers and methods, offering instant processing and secure payouts.

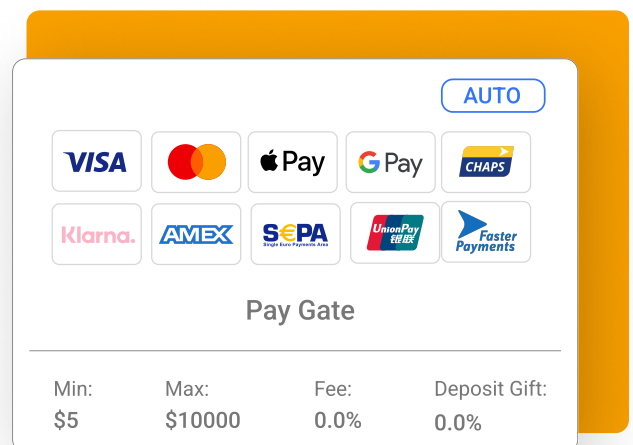

## Pay Gate Overview

- **Accepted methods:** Visa, Mastercard, Maestro, Amex, Apple Pay, Google Pay, Klarna, UnionPay, Faster Payments, SEPA, and local bank transfers.
- **Deposit range:** Minimum \$30, Maximum \$2,500 per transaction.
- **Fees:** 0% deposit fee. (It usually includes a 2%-12% fee, but CloseOption covers the fee for its dear clients)
- **Deposit Gift:** A 4% bonus gift is automatically applied to each deposit.
- **Processing time:** Instant, subject to provider approval and possible first-time verification.
- **Payouts:** Settled instantly in USDC (Polygon) (or compatible tokens/networks depending on provider, but users will see the amount reflected to their real account balance as USD).

## 2. Step-by-Step Deposit Instructions

### Step 1 – Select “Pay Gate”

On the deposit section on your CloseOption dashboard, choose Pay Gate as your payment option and click “Next” to move on to the next step.

The screenshot shows a payment selection interface with a grid of logos for various payment methods: VISA, Mastercard, Apple Pay, Google Pay, CHAPS, Klarna, AMEX, SEPA, UnionPay, and Faster Payments. An 'AUTO' button is in the top right. Below the logos, the text 'Pay Gate' is centered. At the bottom, a table displays the following details:

Min:	Max:	Fee:	Deposit Gift:
\$5	\$10000	0.0%	0.0%

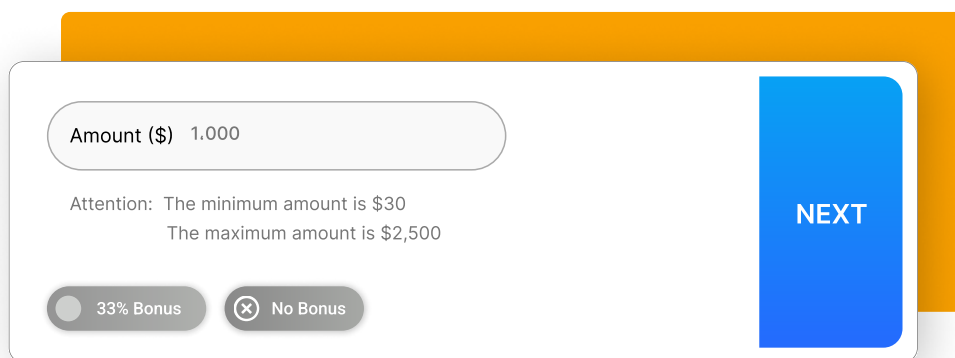

You can see the minimum and maximum deposit amounts, besides the fee and the deposit gift, displayed on the payment option box.

## Step 2 – Enter the Deposit Amount

- Input the amount you wish to deposit.
- Ensure the amount is within the allowed range (\$30 – \$2,500).
- Decide whether to accept a **deposit bonus**:

1. **No Bonus:** Deposits and profits can be withdrawn at any time without restrictions.
2. **Bonus Option:** If selected, you accept the “**Bonus Terms**”, which may include conditions on withdrawals.

Click “Next” to go to the account details after entering your desired amount.

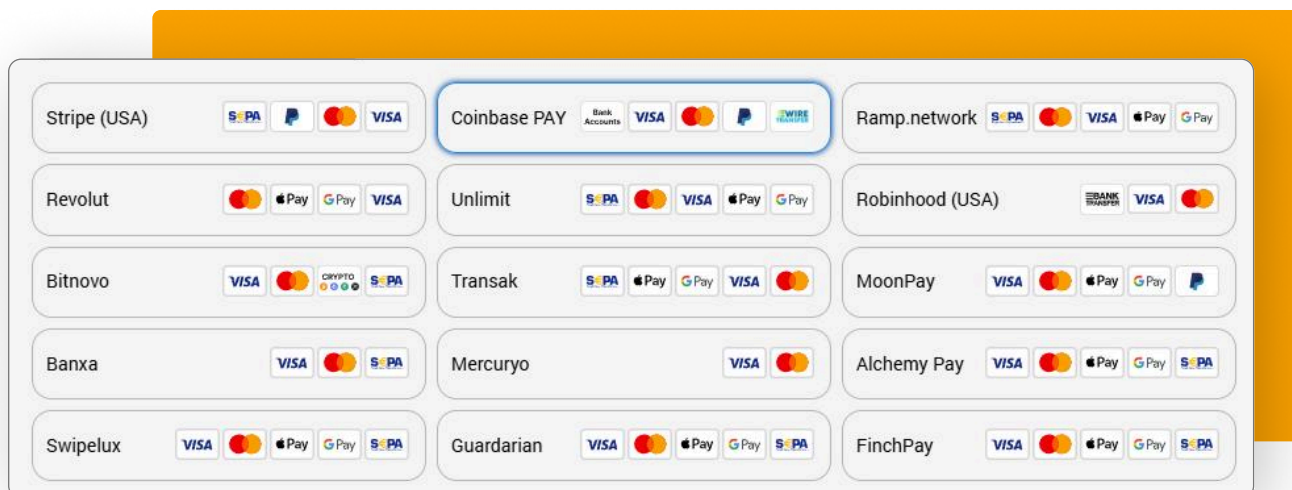

## Step 3 – Select a Payment Provider

Choose the provider most compatible with your country and payment method. Each provider supports different methods:

### Available Providers and Methods:

- **Stripe (USA)** – SEPA, PayPal, Mastercard, Visa
- **Coinbase Pay** – Bank Accounts, Mastercard, Visa, PayPal
- **Ramp.network** – SEPA, Visa, Mastercard, Apple Pay, Google Pay
- **Revolut** – Apple Pay, Google Pay, Visa, Mastercard

- **Unlimit** – SEPA, Visa, Mastercard, Apple Pay, Google Pay
- **Robinhood (USA)** – Bank Transfers, Visa, Mastercard
- **Bitnovo** – Visa, Mastercard, Crypto, SEPA
- **Transak** – SEPA, Visa, Mastercard, Apple Pay, Google Pay

- **MoonPay** – Visa, Mastercard, PayPal
- **Banxa** – Visa, Mastercard, SEPA
- **Mercuryo** – Visa, Mastercard
- **Swipelux** – Visa, Mastercard, Apple Pay, Google Pay
- **Guardarian** – Visa, Mastercard, Apple Pay, Google Pay
- **Alchemy Pay** – Visa, Mastercard, Apple Pay, Google Pay, SEPA
- **FinchPay** – Visa, Mastercard, SEPA

#### Notes:

- A 4% deposit gift applies to all deposits made via these providers.
- You may need to complete a **one-time identity verification (KYC)** with your selected provider. This process usually takes less than a minute and allows you to use the provider for lifetime deposits.

Once you have selected your proper provider, click “Confirm” to finalise the payment process.

## Step 4 – Review and Confirm

- A confirmation screen will appear showing:
- Action code (unique deposit reference).
- Selected provider.
- Deposit amount.
- Deposit bonus (if any).
- Deposit gift (currently 4%).
- The total amount which will be credited to your account.
- Review these details carefully.

Click Pay / Submit to proceed.

Action code  
**#336469**

Provider  
**Coinbase**

Deposit amount  
**\$1,000**

Deposit bonus  
**\$330**

Deposit gift  
**\$40**

Total  
**\$1,370.00**

Method  
**Pay Gate**

VISA Mastercard Apple Pay Google Pay

Discover American Express JCB Neteller Skrill

Payment amount  
**\$1,000.00**

**Submit**

**Pay**

## Step 5 – Complete Payment with Provider

- You will be redirected securely to the chosen provider's website. CloseOption confirms the security of the providers as we are cooperating with the world's most trusted payment providers.

- Follow the provider's on-screen instructions to complete the payment (this may include entering card details, 3D Secure authentication, or ID verification).
- Once the provider approves your payment, you will be redirected back to our website automatically.

## Step 6 – Balance Update

- Upon successful payment, your deposit will be credited to your account balance instantly.
- The deposit gift will also be applied automatically.

## 3. Important Notes

- Payments through 3D Secure enabled (Verified by VISA / Mastercard Secure Code) have a higher rate of success.
- Depending on your country and provider, additional checks (such as KYC) may apply by the provider's end (NOT CloseOption's).
- Some providers in the UK may impose a 24-hour cooling-off period due to FCA regulations.
- Minimum and maximum limits are enforced per transaction and vary by provider.
- Deposits are final; chargebacks are not permitted.
- When depositing through Pay Gate, you will technically be purchasing cryptocurrencies, which are transferred to our wallet by the provider. However, this process does not affect your real balance and incurs no additional fees. The full amount you pay will be reflected in your account as USD, with all fees fully covered by CloseOption.

---

## Support

If your deposit is not reflected after completing provider payment, or if you face any issues during the process, please contact [Support@closeoption.com](mailto:Support@closeoption.com) or **start a conversation with our 24/7 live chat agents on our website**. Our agents are ready to assist you with anything ASAP, making the smoothest experience with CloseOption.
